MonkeySpace 2013

Why Sponsor MonkeySpace?

MonkeySpace was created to fulfill a goal of evangelizing and educating about open source and cross platform .Net development. We're becoming the flagship event for the open source and cross platform .Net community. It's the largest official gathering of the year, and is attended by top .Net talent, companies and project representatives from all over the world. The 2013 edition of MonkeySpace is presented by Monkey Square, Inc., and will be held in Chicago, IL. MonkeySpace is the place for product launches, project announcements and good old fashioned networking: whether you're looking to recruit, to promote your product or just to soak in the content, you need to be at MonkeySpace.

MonkeySpace attracts people with a wide range of experience and backgrounds. You find attendees working at promising startups, developers and high profile .Net personalities as well as company managers. One thing everyone has in common is their passion for the .Net open source and cross platform community. We have had attendees from all over the world. Between 250-300 people get to socialize in one place during four days.

Interested in showing your support and helping the community that use your tools or products? Maybe you just want to show your support for open source projects you use yourself. Still on the fence, view videos from last years event: https://vimeo.com/album/2142123. We also have promo videos from last year's event on http://monkeyspace.org.

About Monkey Square

Monkey Square is the parent organization for MonkeySpace. MonkeySpace is just one of our initiatives. For example, we also help throw a code camp in the Dominican Republic.

If you're interested in sponsoring Monkey Square at the organization level, we'd be happy to talk about the options. For example, if you sponsor at the org level, we have packages which would automatically make you a sponsor of any event that is affiliated with us, including MonkeySpace. These packages can renew every year, giving you the option to support our community.

Monkey Square is a 501(c)(3) non-profit organization. Our tax ID number is 45-3112981. Your gift is tax deductible to the full extent provided by law. All donations are used to evangelize open-source development in .NET.
